ABOUT JEEC

01

WHO WE ARE

JEEC is a technological event, open to the entire community, organized by students of Instituto Superior Técnico, with a special focus on the various fields of Electrical and Computer Engineering. Our main goal is to provide students from various courses a closer connection between the academic and business worlds, complemented by the promotion of science and technology.

SUPPORT FROM IST

JEEC is supported by the Student Group of Electrical and Computer Engineering of Instituto Superior Técnico (NEECIST), the Department of Electrical and Computer Engineering (DEEC IST), the Student Association of Instituto Superior Técnico (AEIST), and Instituto Superior Técnico (IST), in addition to our annual partners.

25 YEARS

In 2025, JEEC will celebrate its 25th edition. That's 25 years of filling the gap between the academic and business worlds, focusing on students' personal and professional development, and showcasing the best in science and technology. We don't want this important milestone to go unnoticed, and we count on the support of all the partners and companies that, over the past 25 editions, have helped us do more and better each year. We look forward to having you with us for an even more special edition!

ACTIVITIES

02

1

JOB FAIR

Held in the main space of JEEC, this is an informal opportunity for students and companies to connect. It is the perfect chance for companies to showcase themselves, inform students of possible internships, and answer any questions or curiosities.

2

CVs PLATFORM

Access to a platform with participants' resumes.

3

ELETROLINK (NEW!)

An exciting booth where companies can engage in 1-on-1 conversations with students and potentially find their next employee or intern. It also includes access to the CVs platform.

4

15/15

A 30-minute activity where companies can present a topic, project, or technology they use or have developed, followed by time for questions and networking.

5

INSIDE TALKS

A 45-minute activity featuring rotating tables, where companies can invite an engineering professional to speak with students about their day-to-day work and/or share their career path.

6

WORKSHOP

A 1-hour practical activity where companies provide students with hands-on experience related to a specific topic.

JEEC WEBAPP

03

JEEC WEBAPP

PARTNERS

As in previous years, we once again rely on the JEEC WebApp. This application aims to support both companies and students, encouraging them to participate in various activities.

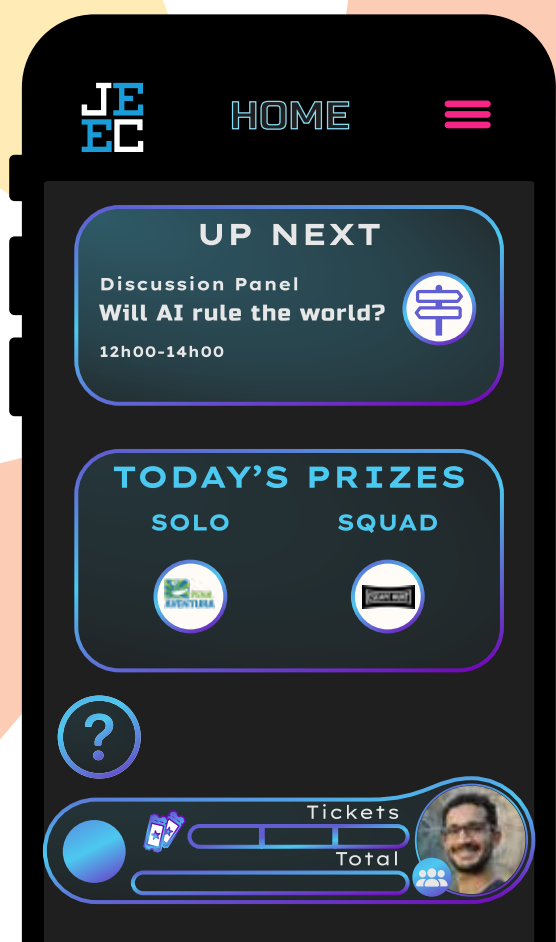

Our app offers several features, such as:

SCHEDULE

ACCESS TO INFORMATION ABOUT THE ACTIVITIES

SECTION WITH PERSONALIZED INFORMATION FROM OUR PARTNERS

POINTS AWARDED TO PARTICIPANTS

STUDENTS

GIFT SHOP

To encourage student participation in the various JEEC activities, the JEEC WebApp features an innovative points system. Participants can earn points by taking part in activities and interacting with companies, which they can later use to redeem JEEC merchandise or entries into our raffles.

PRIZES

Grand prizes will be raffled for the different activities, as well as for participants with the highest daily and weekly point totals. It is also possible to form **SQUADS** and compete for collective prizes.

ADVERTISING

04

1

Banners and posters placed around the IST campi;

2

Physical promotion near the Técnico Innovation Center (TIC) and at strategic locations in Lisbon;

3

Constant updates to the official JEEC website (jeec.ist) and WebApp with all event-related information;

4

Strong presence on social media (Instagram, LinkedIn, TikTok, X, and Facebook);

5

Announcements through IST's official communication channels, website (tecnico.ulisboa.pt), and social media;

6

Mailing lists for the courses in Electrical and Computer Eng., Aerospace Eng., Electronics Eng., and Telecommunications and Informatics Eng.;

7

Promotional team active during the event week.

Konstantinos Laskaris

António Coutinho

Pedro Calorio

Waqas SJ

Anne Aaron

CONDITIONS

06

- The participation terms for each company or startup will be discussed during meetings with them, where various proposals for participating in the 25th edition of JEEC will be presented.
- It is not possible to purchase only the EletroLink or CVs Plataforma.
- The JEEC organization reserves the right to refuse a combination of activities that could lead to reduced rotation of the companies/startups present at the event.
- Requests for booking hours and days are processed in the order of confirmation of participation.
- The JEEC organization reserves the right to reallocate a slot to another company if the original one fails to meet the stipulated deadlines.*

*After the deadline, no refunds will be processed.
